Why didn't my math credit transfer?

Last Modified on 11/23/2026 7:24 am MST

Math credits from a previous institution may not transfer over if the previous math course was remedial, developmental, or preparatory (i.e. not true college-level).

Please see the Transfer Credit Policies listed in the Academic Catalog for additional information. Be sure to reach out to your Success Counselor if you have any questions about your transfer credits.
