

Degree Conferral

Last Modified on 05/12/2022 4:08 pm MDT

Degrees are conferred within 30 days after final grades have posted for the term in which all graduation requirements were met by the student. All final grades must be posted before degree conferral will begin. Until this time, the student will remain in a Graduation Candidate status. Once conferral has been completed, the student will be notified by email that they have been conferred, what the next steps are, and that they will be moved into a "Graduated" status.
