

CSU System

Last Modified on 05/05/2022 12:55 pm MDT

CSU Global was the first independent, fully-accredited, 100% online State University in the country. But that's not the only thing that sets us apart; we are also part of the renowned Colorado State University System, which includes the flagship Colorado State University in Fort Collins and the Colorado State University-Pueblo campuses. Each of the three campuses are operationally separate, with distinct missions, but are governed under the same CSU System Board of Governors. This means that, though we are all a part of the CSU System, we are 3 separate schools.

As a student of CSU Global, you will benefit from the resources, research, and partnerships of the larger, state-coordinated entity. Together, all three schools in the Colorado State University System serve 37,000 new and returning scholars annually, with graduates numbering almost 10,000 per year, and more than 200,000 alumni around the world.

The degree you earn from CSU Global is conferred by the Colorado State University System Board of Governors, and your diploma features both the system name and CSU Global seal along with your degree program.

If you are interested in transferring to one of the other CSU System schools, please remember that you will need to apply through their Admission's department, just like any other University.
