

How can I switch to a different instructor?

Last Modified on 09/18/2024 8:27 am MDT

Instructors are assigned to their classes 10 days before the term starts. In order to see who the instructor is for a class, students can go to their portal and click on scheduled courses tab 10 days before the term starts. If a student is unhappy with the instructor assigned to their class, they can request to change the course section or change to a different course. Students can request this by the Thursday of the first week of the term. The request should be sent to the [Student Success Counselor](#). If there are not other sections available for that course in the term, the Success Counselor will discuss other options, such as changing the course in general.

A new section cannot be requested after this day. See [When can I drop a course](#) for more information on drop dates.
