

## Are books included with tuition?

Last Modified on 03/02/2026 10:49 am MST

Books are not included in the price of your tuition.

Most students purchase/rent their books from a vendor of their choice. If a course material is required to be provided via the classroom (such as online readings or simulations/supplemental systems), the associated course material charge will be automatically charged to your CSU Global account. Check out the [book list](#) for more information and see if an additional book/material fee is associated with your course.
