

Tuition Rates

Last Modified on 10/24/2024 11:36 am MDT

As a highly-respected, public, not-for-profit state university, we provide a tremendous value for our degrees and programs.

We have a low tuition rate that is the same regardless of where students live; a Tuition Guarantee that locks a student's tuition rate (ensuring their rate does not go up even if we ever increase our tuition, provided they remain active students in good standing); and no fees! Current tuition rates are as follows:

- **Undergraduate Programs:** \$375 per credit hour or \$1,125 for a three credit hour class
- **Graduate Programs:** \$675 per credit hour or \$2,025 for a three credit hour class

Please note: Your tuition rate may be different depending on when you enrolled with CSU Global. Please see your ledger card in your Student Portal to confirm your locked-in tuition rate (in the portal, click on the **My Account and Financial Aid** tab > **View Account Details**).

Books/Fees: There are no additional fees to be paid while taking courses with CSU Global. You will need to only cover tuition and book/material fees (when applicable). You can check the [book list](#) in the Student Portal to see what books/materials you will need for your course and if the book/materials will be charged to your student account or if you need to purchase them separately.
