

What are residential credits?

Last Modified on 03/21/2024 3:02 pm MDT

Residential credits are the credits earned by taking a regular 8-week CSU-Global course. PLA's (Prior Learning Assessments) do not count towards residential credits, as they count towards transfer credits.

Transfer and alternative credits are **not** considered residential credit. Undergraduate students must complete at least 30 residential credits to fulfill degree requirements.
