

When should I complete my FAFSA?

Last Modified on 05/11/2022 8:51 am MDT

The earliest you can complete the [FAFSA](#) for the following year is October. The Department of Education has changed the requirements for tax information and you will now use your tax information from 2 years prior (as opposed to the prior year in the past). You may have the opportunity to use the IRS [Data Retrieval Tool](#). This tool links the IRS Data already submitted directly into the FAFSA form for you. This reduces the likelihood of errors and saves you time.

F.A. Priority Deadline- It is recommended that we receive your FAFSA no later than 10 days before the first day of your term.
