

## Can I get an Associate's degree?

Last Modified on 05/12/2022 4:02 pm MDT

CSU Global does not award associate's degrees, only bachelor's and master's degrees and certificates. If you have transferred credits from a Colorado Community College to CSU Global, you may be eligible for the [Reverse Transfer](#) program. This program allows students to combine credits from both institutions and apply them toward an associate's degree at a Colorado Community College.
