How do I have my international degree evaluated for transfer credit?

Your international transcript must be evaluated, course-by-course, by an approved evaluation service in order to have that credit reviewed for transfer to CSU-Global. You may find an approved evaluation service by visiting the [National Association of Credential Evaluation Services](#) website.

The evaluation must demonstrate a U.S. equivalent to CSU-Global, the degree-type (undergraduate vs. graduate level), and a cumulative GPA.
