

## How do I apply for a Master's Program?

Last Modified on 07/26/2024 8:43 am MDT

If you have completed a bachelor's program with CSU-Global, you may apply for a master's degree. Please contact our Enrollment Counselors by calling 800-920-6723 or emailing [enroll@csuglobal.edu](mailto:enroll@csuglobal.edu)

Below are a few things to remember before requesting the application:

- You can apply for a master's program once your bachelor's degree has been officially conferred. This typically takes 30 days from the day your final grades post. Therefore, you will need to take at least one term off before beginning a master's program.
  - Certain master's programs require additional documents in order to enroll. Our enrollment team will tell you what additional documentation you may need.
  - If your cumulative GPA is below a 3.0, you will need to submit additional documents to be considered for provisional admission into a master's program. Your Enrollment Counselor can help you with these documents.
