How do I apply for my diploma?

After CSU Global completes an initial degree review (done around 105 credits for undergraduate students and 27 credits for graduate students) you will receive an email letting you know that you have been moved into a "Graduation Candidate" status along with instructions on how to apply for your diploma. A new tile, "Apply for Diploma," will appear in your student portal next to the "Course Registration" tile, and you will be asked for the following information:

- The name you wish to have printed on your diploma
- Your expected graduation date (the last day of your final term)
- Your employer information for CSU Global to follow-up (optional)

Please Note: Applying for your diploma does not mean you have officially graduated. Please see the article on [Degree Conferral](#) for more information

Additional Graduation Articles:
