

Degree Conferral

Last Modified on 05/07/2024 6:29 am MDT

Degrees are conferred within 30 days after final grades have posted for the term in which all your graduation requirements were met. All final grades must be posted before degree conferral will begin. Until this time, you will remain in a "Graduation Candidate" status. Once conferral has been completed, you will be notified by email that your degree has been conferred, what the next steps are, and that you will be moved into a "Graduated" status.
