

# Graduate Honors Designations

Last Modified on 06/23/2025 1:46 pm MDT

## CSU-Global Honors

**Graduate** students who complete their degree with CSU-Global and have a GPA of 3.97 or greater will have a Distinguished Scholar honors designation when they receive their degree.

For graduate students, the cumulative GPA applies to coursework completed at CSU Global and does not include transfer work. **Students who repeat courses for academic credit** for D, F, and WA grades are ineligible for honors designation even if their ending GPA is within range. However if a student repeats a course for credit that had the grade of a W, they will be eligible.

**Undergraduate** students, please see [Latin Honors](#).

If eligible for CSU-Global honors, graduate students can order honor cords through [Jostens](#) when ordering their cap and gown. Distinguished Scholar honors designation are displayed on students transcripts, diplomas, and at commencement.

CSU-Global has also partnered with a few other honors societies. If students are eligible for these honors societies, they will receive invitations with instructions on how to become a member.

Click below for information on the other honor societies:
