In-School Deferments

If you would like to defer your federal financial aid loans then you must be [enrolled at a half time status](#), which is 6 credits/trimester for Undergraduate students and 3 credits/trimester for Graduate students. CSU-Global reports enrollment status every term; however, you can also fill out an In-School Deferment Form if your lender is asking for loan payments while you are in school.

Please Note: Undergraduate students who only take one course per term (3 credits) and have not registered for 6 credits or more within the trimester will be reported as less than half time. **It's most beneficial to register for the entire trimester to avoid this issue.**

You should request the In-School Deferment form from your specific lender, fill out sections 1, 3, and 8 (if needed), then scan/fax it over to Financial Aid. Our FA team will then fill out the school portion and fax or e-mail the form over to your lender. *Please be sure that section 8 of the form includes your lender's name and fax number so we know where to send the form.*

Please Note: We can only submit in-school deferment forms for trimesters that you are active in. Please contact Financial Aid with additional questions about In-School Deferments.
