What is CAPM?

CAPM is a professional certification associated with the Project Management Institute (PMI) - it is an acronym for the Certified Associate in Project Management (CAPM)®. This certification is an entry-level certification for project management practitioners and is intended to demonstrate the individual's understanding of the terminology, knowledge, and processes of effective project management.

The Project Management Degree, Specialization, and Certificate through CSU-Global cover the skills and knowledge needed to prepare students for the CAPM exam.

You may view the CAPM exam requirements [here](#).

This is an overview of the CAPM requirements. For complete details regarding the CAPM® eligibility requirements, please view the CAPM® Handbook.

To learn more about the CAPM exam please visit the [Project Management Institute](#) website.
