Late Portfolio Projects

Late Portfolio Projects

Submitting a portfolio assignment after the term has ended is <u>not</u> accepted within the CSU Global Late Policy. If you are unable to submit your portfolio project before the term ends, we recommend reaching out to your instructor **before the assignment is due.** Your instructor may be able to offer a brief extension or you may qualify for an incomplete for the course. Any assignments submitted after a term has ended (without prior instructor approval) are not guaranteed to be accepted or graded. Please also keep in mind that an instructor may not grant an extension for your portfolio - it is up to instructor discretion.
