Student Veterans Organization

Colorado State University Global is proud to have a Student Veterans Organization (SVO) chapter of the Student Veterans of America (SVA). With over 1,300 chapters at Universities across the nation and over 500,000 student veterans, the SVA provides a wide variety of support tools to assist in the transition from military service to career success through education.

The mission of CSU Global's student-driven chapter is to provide service members and veterans with the online resources, support, and student advocacy needed to successfully transition from military service into higher education and beyond.

If you have any questions about the chapter, please send an email to SVO@CSUGlobal.edu.
